### Checkpoint 10 Week13 04-12-2020 ⚠

Guayrin, Brice B.P.B.J.P. (Teacher) 2 months ago

Went well

Nice front-end design for the log-in

Some steps made with improving documentation (frontend choice)

Testing in initial phase (a few methods)

Tips / To Do's:

Behind schedule (partly due to pressure from GPS project)

Make plan with task priorities

Connect front-end log-in with back-end and provide demo

Try to improve documentation

More unit testing (too basic) + system tests (using f.i. Selenium)

- 1. What have you done since the last meeting?
- 2. What is the teacher feedback on that?
- 3. What are you going to do now? (Goals)

Koitchev, Ivan I.G. 2 months ago

- 1. Created a frontend signup page and updated documentation.
- 2. I should prioritize working on connectivity and authentication.
- 3. I am going to work on login and authentication functionality as main priority, as well as on unit tests and documentation.

### Checkpoint 9 Week 12 27-11-2020

Koitchev, Ivan I.G. 2 months ago

- 1. What have you done since the last meeting?
- 2. What is the teacher feedback on that?
- 3. What are you going to do now? (Goals)
- 1. Started creating unit tests and worked on the login functionality. Updated documentation.
- 2. I should provide better explanations and conclusions about my choices in the design document. I should create an api.
- 3. I will continue working on login functionality after I add the necessary changes to the design document.

# Checkpoint 8 Week11 20-11-2020 ⚠ No feedback submitted. Guayrin, Brice B.P.B.J.P. (Teacher) 2 months ago Notes: Try to add more CRUD operations Steps were made with documentation -> Try to keep growing the documentation Try to grow your front-end pages Steps were made with authentication using Spring Unit test not started yet Keep it up with making steps and try catching up with the items above 1. What have you done since the last meeting?

Koitchev, Ivan I.G. 2 months ago

2. What is the teacher feedback on that?3. What are you going to do now? (Goals)

- 1. Since last meeting I have worked on documentation, created ER diagram, backend justification and project scope.
- 2. The feedback I received is that I need to add more details on the scope and backend specification, as well as add an additional table to the ERD.
- 3. I am going to update documentation and start working on authentication and authorization.

### Checkpoint 6 Week 9 06-11-2020

Koitchev, Ivan I.G. 3 months ago

- 1. Since last meeting I have established connection between the front and the back end.
- 2. The feedback I received is that I am on track with the technical part, but need to work on documentation.
- 3. I am going to work on documentation now and continue with implementation afterwards

### Checkpoint 5 Week 8 27-10-2020 ▲

Geurts, Jaap J. (Teacher) 3 months ago

- 1. What have you done since the last meeting?
- 2. What is the teacher feedback on that?
- 3. What are you going to do now? (Goals)

Koitchev, Ivan I.G. 3 months ago

- 1. Since last meeting I have created a new API from scratch (this time using spring boot) and connected it with a database.
- 2.
- 3. I am going to continue working on the CRUD operations in the API.

### **Checkpoint 4** week7 16-10-2020

Guayrin, Brice B.P.B.J.P. (Teacher) 3 months ago

- 1. What have you done since the last meeting?
- 2. What is the teacher feedback on that?
- 3. What are you going to do now? (Goals)

Koitchev, Ivan I.G. 3 months ago

- 1. Since last meeting I have created a Design Document and started work on frontend.
- 2. The feedback I received is that I should catch up with the work on the frontend.
- 3. I am going to continue working on my frontend as desired in the feedback.

### Checkpoint 3 Week 5 02-10-2020

Koitchev, Ivan I.G. 4 months ago

- 1. So far I've chosen a framework to use for the frontend (ReactJs) and started to learn it.
- 2. The feedback I received is that I should extend my use cases list and also use the Gitlab "issues" feature.
- 3. I am going to add my user stories as issues in Gitlab to make task management easier. I am also going to start work on the frontend of the application.

### Checkpoint 2 Week4 - Brice 25-09-2020 A

Guayrin, Brice B.P.B.J.P. (Teacher) 4 months ago

- 1. What have you done since the last meeting?
- 2. What is the teacher feedback on that?
- 3. What are you going to do now? (Goals)

Koitchev, Ivan I.G. 4 months ago

- 1. Since last meeting I started the work on my API and added some of the most fundamental classes.
- 2. The feedback I received is that I should extend my api and also start work on the frontend of the application.
- 3. I am going to make improvements based on the feedback I received, as well as fix a problem with my CI.

### Checkpoint 1

Feedback on REST API 11-09-2020

Koitchev, Ivan I.G. 4 months ago

Up until now use cases are done.

What I'm going to do next is finish user stories and work on API.

Feedback: I need to catch up a bit with the work on the API.
