Improved the API Documentation

Nice work on Swagger documentation. You can be a bit more active during the group meetings.

Ivan included missing API endpoints into the Swagger documentation and finally made it work with authentication.

Finished his work.

Did a good job on finishing his task.

Ivan took time from his holiday to fix the documentation for our project and he is trying to do his best.

Checkpoint 3   02-12-2020   ☺

Created API Documentation with swagger

Ivan was doing good on the back-end. He implemented nice Swagger documentation.

Ivan is still struggling with the API documentation.

Was supposed to work on something but had trouble and still hasn't finished. If he needs help he should ask (earlier) and communicate about it.

Ivan is not contributing as much as before, but probably mainly due to ITS. Don't fall behind Ivan!

Ivan works on the backend and he is always present during our meetings and he works on everything he says se will.

Checkpoint 2   **Frank**   03-11-2020   ☺

Need to do assigned tasks quicker

Ivan is doing alright. He is a little quiet sometimes but does good work.

Ivan focused on researching an essential topic of documenting the functionality of the back-end. This step will improve the development speed and help the team to track changes and experiment with the... Read more

You are doing tasks assigned to you in time.

I don't think he has done anything yet this sprint.

Good work on the project, only talks if it's necessary, nice collaboration with the team

Checkpoint 1   28-09-2020   ☺

Need to be more active during meetings, good ideas

You might want to try to be more active during the discussions within the team. That way, you can get a more accurate understanding of what is in and out of the scope of the project.

He is quiet, even in meetings. It would be nice if he would try to talk more. But he does attend all meetings and responds on time when needed.

He is good with solving his task, but I think he should be more active on our online environment.

Ivan takes down the meeting notes.

You have been finishing given tasks very fast. I think you should discuss things more actively and give more ideas during the team meeting.
